

Electrical Shrink Tunnel

- Suitable for nearly all kinds of containers (glass, pet, pp, metal,...)
- Bottle diameter range: 13-120 mm
- Bottle height range: 20-220 mm
- Easy & quick machine adjustment for different bottles within max.15 minutes
- Including thermal insulation for outer surfaces
- Including cooling fans
- Including digital temperature controller (adjustable up to 200 degree C)
- Film thickness range: 30-80 micron
- Conveyor length: 1500-2000-3000 mm (optional)
- Intelligent system avoids conveyor run prior to reach the set temperature (also keeps cooling fans ON for certain minutes after conveyor stops)
